Assembly Diagram for "Chloe"

Insert thread into the hole in the center back of torso. Run thread up through the neck opening, thru head, and out one hole in the top of the head. Insert thread back thru remaining hole in top of head, into neck, and out the hole in lower torso. Dip a wooden toothpick into tacky glue. Pull both ends of the elastic taut, and force the toothpick into the hole to anchor elastic. Allow to dry, then clip the toothpick flush with the porcelain torso.

Stringing a Swivel Head
